

# Basics of Home Infusion

## You are invited to attend an accredited CE presentation!

This accredited continuing education course will be offered at no charge:

The purpose of this program is to give clinicians a basic understanding of home infusion industry and patient-centric care. Explain what is involved in patient care from initial assessment through discharge from services.

The course is followed by an evaluation and post-test, and participants passing the post-test (>80%) will earn one (1) continuing education credit hour.

### Upon completion of this course, participants will be able to:

1. Identify which patients are appropriate for home infusion therapy
2. Describe the differences and utilization for four types of access devices
3. Recognize the most common therapies administered in the home setting, including the delivery system for each
4. Define the roles of the clinician caring for the patient

---

**Presenter:** This course was designed by Hi-R-Ed Online University. Hi-R-Ed has been approved as a provider of continuing education credit for social workers, nurses and dietitians and has received course approval for case managers.
